

interview Glen Ford a former writer for the Black Commentator and now with the <http://www.BlackAgendaReport.com> about his views on Obama Mania expressed in a recent Counter Punch article, "Barack Obama: The Mania and the Mirage". Glen Ford is a progressive black political commentator and well versed in the Obama issues. Can we trust this rising star? Is he the Great Black Hope or another political mirage? The second hour, I will interview Pat Rasmussen, coordinator of Save the Temperate Rainforest campaign of <http://www.temperaterainforests.org>. She has some startling news about the health of our Temperate Rainforests here in the North West and the speed at which Global Warming is taking it's toll on the forests. NEW WAY TO LISTEN TO KSKQ WITH FLASH

Our Technical Committee is experimenting with Flash and made this <http://audio1.kskq.org/listen/>. It should work on most computers and it's alternative to clicking on a link and opening up some other program like itunes. This is automatic. Give it a try and let us know what you think!

Homeless in District 9 newsletter – download pdf http://www.kskq.org/Docs/Homeless_in_District_9.pdf

I am new to District #9 and am contacting media groups regarding Homeless advocacy issues. Two months ago I was hired to help homeless students at the White City, Eagle Point and Shady Cove schools. Under the New McKenny-Vento Act (as of 2001) the definition of Homelessness regarding students ages k-12 for all public schools includes those who live in RV's or other unstable housing, multi-family situations due to lack of financial support, in tents or cars, motels/hotels or any not meant for human residency locations. I have joined the Homeless Youth Task Force and the Homeless Task Force. I have been meeting with students, parents, teachers, principles and agencies in the area as well. My goal is to advocate for these students who find themselves in a homeless situation and help them get an education. One way I plan on accomplishing this is to educate our communities about this new definition of homelessness for students and that every school should have a representative Homeless Liaison to help them to obtain a diploma or GED certificate. Homeless students have rights. One is, a homeless student can not be denied enrollment just because they do not have school records or other documents or a parent to enroll them. I have a monthly Newsletter for your information in case you ever cover this topic. It can be downloaded via link above. It is larger than the other months as it is the beginning of the year. Also, any contacts you may know of that could help our Rogue Valley students would be of great appreciation as well. I am trying to get the word out and help as many people as possible.
